

Every lesson (or a series of lessons) concentrates on a different subject – and presents it to you together with relevant portions of grammatical and vocabulary material. In every lesson, there is an exam task for you to complete. Every lesson (or a series of lessons) is followed by a quick progress check. After every class, you receive a portion of new vocabulary in your individual Quizlet course. Every lesson is a major exercise in thinking (reading, listening, writing, speaking) in English.
